~Welcome to the Big Tom Timber Tract ~

514 rolling acres of professionally managed timber resources consisting of:

~155 acres +/- of recently, commercially thinned 18 year-old loblolly pines and 31 acres +/- of 8 year-old loblolly pines

~155 acres +/- of recently clear cut land (about to be replanted via VADOE reforestation program)

~Remainder of land being hardwoods in the streamside management zones

Well maintained interior roads wind throughout the entire acreage. Property has over 5700 feet of frontage on Goose Creek, including a 36 acre oxbow 'island' of mature forest never logged due to access. This portion of the property would make an excellent camping & river recreation family hub while the rest of the property continuously grows future income & creates excellent hunting opportunities.
